Star Control aliens will be in Star Control games based on the needs of the story.

They will be expressed in such a way as to not violate anyone's alleged copyrights.

They also will not appear in other games without our permission.

Okay, but if I buy Star Control: Origins on September 20th, will I be getting a game with Arilou in it?

That's too bad. I've been gone for a few months but had heard that you had reversed your decision regarding the original Star Control aliens.

For the release, we are looking to have as little controversy around it as possible.

Understandable. Good luck on your launch. Unfortunately, I can't end my little protest until I am sure that your original promise will be kept. I did enjoy participating in the Founders program. Even when we disagreed. Especially then actually.
